Good day sir iam the parent of the children you are contacting. My son is autistic and does not have a boyfriend he also is not the only Matt t there was one that tried to place photos on the internet saying it was my son and we went and filed a police report. Contacting my daughter and sending her this was not a smart way to handle this matter iam making a report with my local police department later today

Well Renee Torno formerly Renee Trojanowski, I would love it if you would go to the police. Because I know for a fact that the Mathew Trojanowski that is stalking me, slandering me and telling people I rape my children is the same Mathew Trojanowski that lives in the same house your do. Whether your son is autistic or not, his email address matches the one the Mathew Trojanowski that told people to google "---- My Name---- fucking his daughter" after I asked him about the 27th of Jan 1986 and whether he is autistic or not, if he is going to spend an entire year stalking someone, you need to commit him. I've seen Lae McLaughlin's video on youtube and what you guys went through must have been horrific, but why would you allow your son to do slander others with the shit that happened to you guys? I have a disabled sister so I understand what it's like dealing with disability so if you're going to try and play off that he's allowed to say I fuck my children because of autism, it's make sense why he now has been allowed to dedicate a year to harassing and attacking me and my children.

You protected your children and got them out of a bad situation but now one of them is projecting that situation in attempt to destroy my business, slander me, ruin my reputation, steal my customers and bait me into aggression. I already have an open investigation with the police but it's moving too slow and Mathew is pushing me too far. I am attempting to have this resolved amicably before it descends into an even bigger and more televised situation.

I'm sure if I contacted Michael Craig McKee, Luis Antonio or Peter F Pagliaroli they'd confirm that this disgusting excuse for a human being is indeed the same piece of shit that has harassed me for a very long time. As for the boyfriend reference, I was calling the other perpatrator in this situation his boyfriend when I really mean "his bitch" because Crix Madine Jr AKA Edward Anthony Griggs Jr does whatever Mathew tells him to do to get me arguing with them.

You can't tell me this whoville looking cunt on the left isn't the same ugly motherfucker on the right.

You son works for Swissport (Employee ID#307878) These are his known email addresses: trojanowski.mathew@gmail.com mr.adware191@gmail.com trojanowskim@yahoo.com mathewtrojanowski@yahoo.com trojanowskimlq76@yahoo.com laeticia23@yahoo.com lcmiramontes@hotmail.com mathewtrojanowski@live.com bic191@live.com lcmiramontes@peoplepc.com trojanowskimathew@gmail.com

I noticed you used a different email to your regular one so I've CC'd your regular one aswell as Mathew. Take him to a mental health ward asap, he's not okay.

If you still feel you need to go to the police, I welcome a call from them, I have over 400 screenshots that the Australian Federal Police is taking too long to process.

Funny how you deny it, but your house was sold to you and pedo Paul in 1998. Do something about him before he messes with someone who isn't mentally stable Renee.

That hilarious Renee, there's nothing on the internet about me, you don't even know my name.

Look Renee you've seen what kind of person he is, you've seen what he says about children for christs sakes, are you going to get your son to leave me alone or not? And before you deny it's him again, you are literally the only person who have ever been given this email address and 3hrs before you told me to go for a run, I got this email for your son once again. I don't have to wait for you to tell him to pull his head in, you do realise I can go straight to your local police station with all of this and being that it's the internet, they might question if it's Paul acting as Mathew online.

Did I get you to smile? Maybe even laugh I hope so. I don't need to know your name but I do know that you are smart and I do hope that life is treating you well minus the few bumps in the road. How is Australia is it really as pretty as the pics show. 🌸 🌸 yes?

Can't you just delete the emails and ignore them? Don't respond it's what the local cyber bullying group said to do when you sent me all of this? Seems to be the thing that might stop all of this.

Don't reply to accusations of molestation designed to slander my business out of spite for me refusing to allow him to profit off my work? You realise this has gone on for a year right? You son has 5 websites dedicated to slandering me, he goes out of his way to target people who use my software, he literally stalked my children, told me to kill myself, told people to google disgusting things using my kids names. Now you're stalking my location when I only reached out to resolve this without ruining your son's life. I've never hidden who or where I am, I'm not an easy to scare/easily intimidated person. I have nothing to hide and I live my life very publicly. I wondered what kind of woman would take her children back to live in their rapists' house and continue to live with him selling the house back and forth to avoid taxes. Aight fuck it, I've given you both plenty of chances, one more thing from any of you sick fucking pedos and I'll be taking absolutely everything to your local police you stupid cunt.

Sir lam far stalking you I have been nothing but nice to you trying to understand as I waited for the stop cyber bullying group help me establish a new email and clear all the misinformation that also has happened to myself and family. This group took so long because in America you have to have legal permission to remove false information and they do this by looking for ip addresses. Apparently there are a lot of them I do not understand what they mean. Found several profiles on my daughters and sons and myself. Ages and addresses are not us I don't understand but then I never googled myself didn't really have anything to hide. Boy was I naive you brought my attention to this and I thank you. My house has been mine since the beginning never sold never in anyone else's name hoping it hasn't been transferred to some hacker or thief The group said your ip was from Australia that's all I know. The group said for me to not respond but I didn't listen I will listen to them You should seek legal advise like I did all this sounds awful good luck

Not Skynet Killfeed - Registered Email Pre-Split To: Runt T Wed 7/3/2024 7:49 AM

Are you admitting to illegally obtaining my IP address with a group of unlawful cyber criminals? I'm sure the police will love to see you saying that. Tell Matt to lose his virginity or something to someone other than his dad. What kind of sick, twisted, fucked up cunt of a mother makes her kids go through that, then moves back in with the guy who fucking did it. No wonder Mathew Trojanowski is so fucking psychotic. Fuck off mutt.
