Subject: Immediate Correction Required – Your Explanation is Factually Incorrect and Legally Misleading

Dear Dithi D and the Trustpilot Content Integrity Team,

Your latest response continues the pattern of providing inaccurate and misleading explanations while completely ignoring the timeline and factual context I have repeatedly provided.

Let me be absolutely clear, again:

1. The review that mentioned the word "bot" was referring to the fact that my business operates as a Discord bot – a chat-based automation tool for the Discord platform.

It has nothing to do with artificial intelligence, machine learning, neural networks, or any technology associated with AI.

2. Your platform tagged my business with “artificial intelligence” as a Top Mention months before that review was ever written.

This proves beyond doubt that the AI tag was not triggered by that review, and your explanation is factually incorrect.

3. Your attempt to justify the AI tag by retroactively pointing to a single unrelated review — which references “bot” in the context of Discord — is a clear case of post hoc rationalisation.

To repeat what you still have not done:

- You have not removed the AI tag, despite its inaccuracy.
- You have not explained why the tag appeared before the “bot” review existed.
- You have not acknowledged that your system is conflating “bot” with “AI” without any valid basis.

This is not a technical misunderstanding. It is a false public claim being hosted on your platform, misrepresenting my business and misleading users. It is also a breach of:

- Australian Consumer Law – Sections 18 and 29 for deceptive and misleading conduct
- APP 13 – For refusal to correct inaccurate information upon request

If your system is automatically generating and displaying false metadata — and you refuse to correct it even after being shown evidence — then you are legally accountable for the consequences of that misrepresentation.

This is no longer a support query. It is a compliance issue.

Correct the record. Remove the AI tag. Stop pushing false claims about my business. Escalate to someone senior who understands the seriousness of this situation and is legally competent to respond.

Sincerely,
Anthony Brodie

Dithi D (Trustpilot Help)

9 Jul 2025, 08:12 BST

Hi,

Thanks for your reply.

We understand your concern regarding the situation. The Top Mentions filter on Trustpilot business profiles helps users easily locate reviews that highlight specific keywords. These keywords are generated automatically by analyzing the content of reviews, especially when certain terms or phrases come up frequently.

In your situation, the term "artificial intelligence" was listed as a top mention because a reviewer mentioned interacting with your business through a bot. As a result, the system automatically categorized the review under "artificial intelligence" based on that context.

If you need any further assistance, please feel free to reach out to us.

Best regards,

Dithi D,
Content Integrity Team

We are rated **4.4** out of 5

Trustpilot trades on the London Stock Exchange under the ticker **TRST**

Hello Anthony,

Thank you for reaching out to us. We fully understand the complexity of your situation and are here to assist you further.

The Top Mentions filter on Trustpilot business profiles is designed to help users quickly find reviews that mention specific keywords. These keywords are generated automatically based on the content of reviews, for example, when certain words or phrases are repeatedly mentioned.

In your case, the term "artificial intelligence" appeared as a top mention because a reviewer referenced your business using a bot. Based on this context, our system automatically categorized it under artificial intelligence.

For your reference, we've attached a screenshot below.

[cid:6853a4333b8a3_621570764a0@classic-active-job-outbound-mail-worker-5955cfd465-4dnf6.mail]

Please note that we do not manually select or edit the Top Mentions — they are updated dynamically as new reviews come in.

Thank you for your understanding.

Kind regards,

Abhishek A,
Content Integrity Team

This is a follow-up to your previous request [#34628817](https://trustpilot-help.zendesk.com/hc/requests/34628817)<<https://trustpilot-help.zendesk.com/hc/requests/34628817>> "This message serves as a fo..." Dear Adithyan S. and the Trustpilot Content Integrity Team, I am following up regarding your response dated 26 May 2025, in which you attempted to deflect responsibility for the false, misleading, and reputationally damaging inclusion of "artificial intelligence" as a "Top Mention" on my Trustpilot business profile for killfeed.co. Let me be absolutely clear: This misrepresentation is not only factually incorrect, it is also a violation of multiple Australian consumer protection laws and advertising standards. _____ Facts of the Matter: 1. The phrase "artificial intelligence" does not appear in any of the 46 reviews on my profile. * This is confirmed by your own search system returning "No matches" for the term. * Yet it is displayed prominently under "Top Mentions", which falsely implies that customers are referencing AI, when they are not. 2. Your autocomplete system suggests competitors who are not even in the Trustpilot listing for that keyword, while simultaneously omitting businesses (such as mine) with higher ratings and more relevance. 3. You previously misclassified my business as using "AI-generated responses" in replies, which was false and had to be manually removed. This proves a repeat pattern of inaccurate classification. 4. Your public claims of "transparency" in disputed reviews directly contradict the lack of transparency in your algorithmic classification system, which you now refuse to disclose or correct. _____ Legal Breaches You Are Now Repeating: You are in breach of the following Australian standards and laws: * Australian Consumer Law (ACL) – Schedule 2 of the Competition and Consumer Act 2010 * Sections 18 and 29 prohibit misleading or deceptive conduct and false or misleading representations about services. * Australian Privacy Principles (APPs) * Your classification falsely associates my business with automated systems it does not use or offer, potentially breaching APP 13 – Correction of personal information. * ACCC Guidelines on Online Reviews * You are misrepresenting my business based on metadata, not genuine user reviews, which is deceptive under the ACCC's own published review transparency policies. * Misleading Advertising Codes * The inclusion of "artificial intelligence" implies a technological offering that does not exist in my service, misleading both existing and potential customers. Your System Is Not Transparent – You Must Explain This Immediately: Your vague attribution to "the way the reviewer conducted the search" is both nonsensical and deflectionary. It does not explain: * Why your "Top Mentions" system invents phrases that are absent from review text. * Why your autocomplete gives higher visibility to lower-rated, less relevant listings (as evidenced in the attached screenshots). * How these manipulations are occurring without review evidence. _____ I Now Formally Demand: 1. Immediate removal of the "artificial intelligence" Top Mention from my business profile. 2. A full, written explanation of

exactly how your “Top Mentions” and “Autocomplete” systems work. * Why do lower ratings with fewer reviews appear higher? * Who/what decides which order to list these in? * Whether these decisions are automated, human-curated, or influenced by third-party indexing? 3. A written assurance that no future references to AI or similar misclassifications will be applied to my business profile unless directly cited by reviewers. 4. Permanent correction to your backend algorithm to ensure this does not occur again — not just to my listing, but to any business impacted similarly. _____

Final Notice Before Escalation: If the above actions are not completed and confirmed in writing, I will proceed with the following: * File a formal complaint with the Australian Competition & Consumer Commission (ACCC) for deceptive conduct and lack of transparency. * Submit complaints to the Office of the Australian Information Commissioner (OAIC) for improper data handling and profiling. * Pursue public exposure of your platform’s internal manipulation and false metadata tagging practices, using the extensive evidence already collected. * Notify any partners or consumers who rely on Trustpilot ratings that your AI classification and “Top Mentions” are demonstrably fabricated and untrustworthy. _____ You are a publicly traded company (LSE: TRST), and that obligates you to higher standards of accuracy and transparency.

Misclassifying my business not once, but twice, is not just sloppy — it's negligent, misleading, and illegal in this jurisdiction. I strongly suggest your team treat this matter with the seriousness it warrants. Sincerely, Anthony Brodie Owner – Legion Killfeed  <https://killfeed.co>

Regarding the classification issue you mentioned, we wanted to clarify that it was not done by the other side. It appears that the way the reviewer conducted the search has inadvertently led to this outcome. We completely understand how this may have caused some confusion, and we truly appreciate your patience as we looked into it. We're committed to ensuring transparency and accuracy, and we'll make sure this point is clearly communicated going forward. Please feel free to reach out if you'd like to discuss this further. Warm regards, Adithyan S, Content Integrity Team

Trustpilot trades on the London Stock Exchange under the ticker TRST Anthony Brodie 20 May 2025, 18:27 BST This message serves as a formal complaint regarding the continued and false misrepresentation of my business on your platform. For the second time, Trustpilot has incorrectly categorized or labeled my business as using “artificial intelligence” in some manner. Most recently, as seen in the attached screenshots, your system includes the phrase "artificial intelligence" under the Top Mentions section on my Trustpilot business profile

(<https://www.trustpilot.com/review/killfeed.co>), despite not a single review referencing or mentioning AI in any form. Previously, you falsely included a statement that my business uses “AI-generated replies” to respond to customer reviews — which was not only misleading but entirely untrue. I had to request its removal. I want to make it absolutely clear: My business

does not use artificial intelligence in any capacity related to customer service, responses, or automation of Trustpilot interactions. There is no mention of AI in any reviews posted by users, as your own filtering confirms with “No matches” when “artificial intelligence” is searched. These false classifications are damaging, misleading, and legally questionable. I demand the following immediate actions: Remove “artificial intelligence” from the Top Mentions section of my business profile. Review and permanently correct your classification system to prevent this from happening again. Issue a written confirmation that this false label will not be re-applied in the future without legitimate review evidence. If this is not resolved within 7 business days, I will escalate this further through appropriate legal avenues, including lodging a formal complaint with the ACCC (Australian Competition & Consumer Commission) and other relevant consumer protection bodies. Attached are screenshots clearly proving this misrepresentation.
