## Killfeed review left a new review

Hi Anthony Brodie,

Killfeed review just left a new **1-star** review of  
killfeed.co:

*While browsing the website, I ran into several issues that made it difficult to access the content. The layout could use improvement, especially on mobile devices, where the site does not appear to display properly. Some of the color choices make the text harder to read, and certain design elements take attention away from the main information on the page.*
