**Subject:** Warning: we've detected more profile misuse on killfeed.co

Hi killfeed.co,

We've previously reached out to you about profile misuse on killfeed.co. Unfortunately, we're still detecting profile misuse on killfeed.co, so we're following up with this warning and blocking the editing functionality on your profile page for the next 30 days. This warning is the first step in our [Action We Take Policy](#), and **ignoring this warning will lead to further consequences for your business.**

**What is profile misuse?**

Profile misuse is editing your business profile with deceptive, misleading, illegal or harmful information that undermines the integrity of the profile. This includes providing the wrong name for your business or changing links to direct consumers to a website that's not the subject of the reviews. This can put consumers off from finding genuine reviews or makes it seem that the reviews aren't related to your business.

**What do I need to do?**

- You must immediately stop editing your business profile in this way. Please make sure that you and the rest of your company follow our [guidelines](#) and any changes you make to your business profile are correct and not misleading.
- We've sent a warning notification to your Trustpilot Business account. Please acknowledge it.

**What happens next?**

We'll continue to monitor the situation. If we continue to detect profile misuse, you'll receive a Cease and Desist notice and we may take further steps against your business, as set out in our [Action We Take policy](#).

If you have any questions or need support with the guidelines, please reach out to the Content Integrity Team by replying to this email, or to your designated customer success manager.

Kind regards,

Trustpilot
